

Let Swift Lift take the work out of the fun! The Swift Lift is the one man, hunting stand, blind lift solution.

### **What Is It?**

The Swift Lift is portable and trailer mounted, it takes about 5 minutes or less for one man to put it up or take it down.

### **How Does It Work?**

Level the outriggers, remove the travel pins, winch it up, secure the stabilizer bar, set the ladder and you're ready to hunt!

### **Why Swift Lift?**

No more worrying about getting someone to help you move your hunting blind.

### CONSTRUCTION

3/16th and 1/4" 3x3"  
square steel tubing  
Solid weld construction  
Lightweight, aluminum ladder

### EQUIPMENT

Solar powered, 12 volt,  
deep-cycle, marine battery,  
4.500# winch

### EASE OF USE

Less than 5 minutes,  
one person set up

### STABILITY

Integrated outriggers expand  
up to 16' for added stability

### TRAILER

Expanded metal floor, diamond  
plate steps, 3,500# axle with  
Bearing Buddy® grease fittings,  
4 pin lights meet DOT requirements.

### SWIFT LIFT (NO TRAILER)

The lift is available without  
the trailer (free standing)  
that can be transported on your  
existing trailer
